PROFILE

I am a dedicated and ambitious third-year computer engineering student with a strong passion for technology and innovation

PROJECTS

PORTFOLIO

The Personal Portfolio Website I developed utilizes HTML, CSS, and JavaScript to create a visually appealing and interactive platform. HTML structures the content, ensuring accessibility and SEO optimization. CSS styles the layout responsively across different devices, while JavaScript adds interactivity and dynamism, powering animations, interactive elements, and form validation. These technologies work seamlessly together to showcase my skills, projects, and achievements in a concise and engaging manner.

SPPUKAR [Online Study Material]

The tech stack for this project includes React JS, Firebase Authentication and Cloud services, Express JS, Tailwind CSS, and MongoDB. Designed to cater to a broad student base at my university, this platform enables students to upload and access materials conveniently. Utilizing Firebase Cloud storage, users can securely upload materials, which are organized by Branch, Year, Subject, and Semester.

EDUCATION

Dr.D.Y. Patil Institute Of Technology,Pimpri,Pune

2021 - 2025

- Third-year engineering student pursuing a computer science degree
- CGPA - 8.5

A.D.Joshi Jr. College,Solapur

2019 - 2021

- HSC Percentage - 94%
